

A new premium real estate offering at Bonneuil-sur-Marne port

HAROPA PORT has issued a [call for declarations of interest](#) in a 3.4- hectare plot with an ideal location at the port of Bonneuil-sur-Marne (Val-de-Marne).

A site with exceptional features

A non-divisible plot covering a total of 3,4 hectares comprising two distinct areas:

- Area A - 28 432 sq. m. - available in Q4 2024
- Area B - 5,106 sq. m. - available in Q4 2025

Several options for multimodal access

- (projected) direct connection for the site to the future RN406 main road via roundabout,
- river access comprising four shared-use docks and a container terminal,
- rail access via the rail terminal.

Potential synergy with local actors

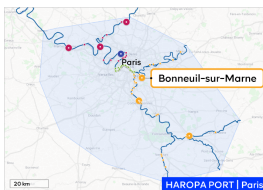

based notably on proximity to the Rungis national wholesale produce market.

►► In accordance with its development strategy, HAROPA PORT wishes to prioritize an activity linked to the energy and ecological transition and generating logistics flows.

Bonneuil-sur-Marne port

- The Second most important multimodal facility for HAROPA PORT in the Paris region providing multimodal, river and rail links.
- Close to Orly international airport and Rungis national wholesale produce market.
- Total area: 200 hectares.
- Over 1,375,000 tonnes in river traffic and 635,000 tonnes rail traffic yearly.

Provisional timetable

- Deadline for submission of applications in digital form: 6 October 2023
- Issuance of call for project proposals: Q4 2023
- Projected date for final award: Q1 2024
